

Very good.

非常好。

I just want to start off by saying thank you so much for getting the data.

首先，我只想大声非常感谢您获得数据。

Figured out and it looks great. I don't have anything additional right now. I think it's now it's my job to just go through and put it all together and run the analysis.

弄清楚了，它看起来很棒。我现在没有额外的东西。我认为现在我的工作就是把所有东西放在一起，然后进行分析。

So I think today this meeting is really for us to figure out how.

所以我认为今天的会议真的是让我们弄清楚如何做。

You want to spend the rest of the semester or at least the next couple of months. So I sent you a Google doc which I can see that you're on it, so I will pull that up.

你想度过本学期的剩余时间或至少在接下来的几个月里。所以我给你发了一个 Google 文档，我可以看到你在上面，所以我会把它调出来。

And so I think this can just kind of be our meeting notes. So feel free to add to this after our meeting or during the meeting, whatever works for you, whatever's easiest.

所以我认为这可以成为我们的会议记录。因此，请在会议结束后或会议期间随时添加此内容，无论什么对您有用，任何最简单的。

And so this can just be our notes document for this semester.

所以这可以就是我们本学期的笔记文档。

So starting off with where I am project wise.

所以从我所在的项目开始。

I am going through the data that you sent and working that into study too. I've started on study three. I have been going back and forth with Marone about.

我正在查看您发送的数据，并将其用于研究。我已经开始进

行第三项研究。我一直在和 Marone 来回走动。

Sort of like what he.

有点像他。

What edits he wants. So I think in the next couple of weeks, probably before our next meeting, I'll send you a draft of what I have for the dissertation so far and if you and see if you think it reads OK, if it makes sense.

他想要什么编辑。所以我想在接下来的几周里，可能是在我们下次会议之前，我会把我到目前为止的论文草稿发给你，如果你觉得它读起来还不错，是否有意义。

Answer any questions that you might have and just so that you can see where we are with things.

回答您可能有的任何问题，以便您了解我们的情况。

So that's sort of how I am.

所以我就是这样。

Doing on the project I think.

我认为正在做这个项目。

Hopefully we'll see what happens, but I think hopefully I plan to defend my dissertation in April, probably early or mid-april. We'll see how things end up happening. And so that kind of puts a hard stop on.

希望我们能看到会发生什么，但我想希望我计划在 4 月为我的论文进行答辩，可能是 4 月初或中旬。我们会看到事情最终如何发生。所以这有点硬性停止。

What we're going to do this semester and so I think I've got a couple of bi weekly meetings here that we can.

我们这学期要做什么，所以我想我在这里有几次每两周一次的会议。

Use as like set meeting times to go over whatever you want to talk about. Or if there's something additional that I need, we can touch base basically.

使用设定的会议时间来讨论您想谈论的任何内容。或者如果我需要额外的东西，我们基本上可以联系 base。

Does that work? Is it like a bi weekly every other

Wednesday? Is that OK with you?

这行得通吗？它像每隔一个星期三的双周一次吗？你同意吗？

OK cool, does 330 on Wednesdays usually work for you?

好吧，很酷，周三的 330 通常对你有用吗？

OK then.

那好吧。

That will be our meeting time, I guess going forward, we'll just stay with this time, so.

那将是我们的会议时间，我想以后我们会继续保持这个时间，所以。

We'll meet today and then we'll meet again in a couple of weeks and.

我们今天会见面，然后我们会在几周后再次见面。

I think at this point.

我想在这一点上。

I remind me you it was SPSS that you.

我提醒你，是 SPSS 让你。

Are have worked with or haven't worked with?

是否曾合作过或尚未合作？

OK.

还行。

So was it R that you wanted to look at?

那么你想看的是 R 吗？

Was there some stats thing?

有什么统计数据吗？

OK.

还行。

Nope, I think everything right now is for me to do. It was more just trying to think if there's any topics that.

不，我认为现在一切都是我该做的。更多的只是试图思考是否有任何主题。

You wanted to go over.

你想过去。

To like use me as a resource basically.

喜欢基本上把我当作资源。

OK.

还行。

No.

不。

OK.

还行。

I think that sounds like a great idea.

我认为这听起来是个好主意。

Then maybe for like our meeting this semester, we can talk about what?

那么也许就像我们这学期的会议一样，我们可以谈谈什么？

Like materials or research processes look like for different branches of psych and I've TA so I TA for IO psychology. So industrial organizational psych.

就像材料或研究过程看起来像心理学的不同分支，我有 TA，所以我是 IO 心理学的 TA。所以工业组织心理学。

That was a year ago. Two years ago.

那是一年前的事了。两年前。

Two years ago, I think and I can give you my materials for that if that would be helpful as a starting point.

两年前，我想我可以给你我的材料，如果这作为一个起点有帮助的话。

But.

但。

I think we can also talk about psychology PhD programs in grad school applications if that's something you're interested in.

我认为如果你感兴趣，我们也可以在研究生院申请中讨论心理学博士课程。

Is there something that I can do to help you meet those goals with applying to consumer behavior, RA ships and stuff?

我能做些什么来帮助您实现这些目标，将其应用于消费者行

为、RA 船舶和其他东西？

OK, sure. If that changes, if you want me to look over any application materials or anything like that, please let me know.

好的，当然。如果情况发生变化，如果您希望我查看任何申请材料或类似内容，请告诉我。

And.

和。

In the meantime, you can just like add to these notes, add to these lists.

同时，您可以像 add to these notes, add to these lists.

And we'll, we can go over whatever you want to talk about.

我们会，我们可以讨论您想谈论的任何事情。

I think as far as work for the RA ship, I might have you help me or I will have you help me in the next couple of weeks with a literature search. So I'll just give you like a prompt and you can go through Google Scholar and just like kind of summarize what you find.

我想就 RA 船的工作而言，我可能会让你帮我，或者我会让你在接下来的几周里帮我做文献搜索。所以我给你一个提示，你可以通过 Google Scholar 来总结你找到的内容。

It's specific to make sure that like, I didn't miss anything with my dissertation discussion.

这是具体的，以确保我没有错过我的论文讨论中的任何内容。

Once I have all of my results. So yeah, I'll get. I'll probably need your help for that.

一旦我有了所有的结果。所以，是的，我会得到。我可能需要你的帮助。

But I think that'll be it. So I think really just.

但我认为就是这样。所以我认为真的很公正。

You let me know what you want to learn, if there's anything I can help you learn or find another RA ship, anything that I can do. If I, if you want me to like write a recommendation letter or something like that, just let me know so.

你让我知道你想学什么，如果有什么我可以帮你学的或找到另一艘 RA 船，我可以做的任何事情。如果我，如果你想让我喜欢写一封推荐信或类似的东西，就让我知道。

Sure.

确定。

All right, then next time we meet we can go over.

好了，下次我们见面时，我们可以过去。

Like psych research processes and talk about IO psych specifically since you're interested in consumer behavior and I'll give you some resources and we can go through those.

喜欢心理学研究过程，特别是谈论 IO 心理学，因为你对消费者行为感兴趣，我会给你一些资源，我们可以介绍这些资源。Is there anything else that you would like to touch base on today?

您今天还有什么想谈的吗？

Nope, you're just, you're just hanging out. There's nothing. Because right now where I am in the research is I have to do things on my end.

不，你只是，你只是在闲逛。什么都没有。因为现在我从事研究的工作是我必须自己做事。

So.

所以。

Yeah.

是的。

It probably is a bunch of missing data. They will recruit participants from different countries with each year and so it's not consistent. If they change, they just change it. And so that's why in my analysis I'm doing average scores for each place based on the data that are available.

可能是一堆缺失的数据。他们每年都会从不同国家招募参与者，因此并不一致。如果他们改变了，他们就改变了它。这就是为什么在我的分析中，我根据现有数据对每个地方进行平均评分。

Because really, there isn't. There isn't much we can do about it.

因为真的，没有。我们对此无能为力。

We just kind of have to work with what we have. So there are specific gaps I think in the data, particularly around.

我们只是必须利用我们所拥有的。所以我认为数据中存在特定的差距，尤其是围绕这些数据。

The years of COVID, I think they were really weird. If I remember where it's like right before COVID. So like 2017 through like 2021. Those years I have a feeling it's probably because of.

COVID 的那些年，我认为它们真的很奇怪。如果我记得 COVID 之前的地方。就像 2017 年到 2021 年一样。那些年我有一种感觉，这可能是因为。

Being able to get the data that they've collected, input and published probably from.

能够获取他们收集、输入和发布的数据。

Just what's happening in the world?

世界上发生了什么？

But yeah, it's don't worry about it. It's really fine. If you just want to make sure that everything that I have is accurate to what's in the PDF documents, that would be the most helpful thing.

但是，是的，不用担心。这真的很好。如果您只是想确保我所拥有的所有内容都与 PDF 文档中的内容准确无误，那将是最有帮助的事情。

OK.

还行。

Don't worry about it. So it's.

别担心。所以是这样。

It's a limitation that I guess we're anticipating. So it will probably influence the results of it. But that is also the analysis that I am using this data for are exploratory

anyways. And so this is something where we have freedom

to do some guesswork and.

我想这是我们预料到的限制。所以它可能会影响它的结果。但这也是我使用这些数据进行的分析，无论如何都是探索性的。因此，我们可以自由地进行一些猜测。

We're just trying to see if there's anything here at all so.

我们只是想看看这里是否真的有什么。

It's kind of anticipated that there's going to be missing data and it's going, it's not all going to be the best quality I

guess. So it's OK really don't worry about it.

在某种程度上，预计会有缺失的数据，而且数据会继续下去，我猜这不会是最好的质量。所以没关系，真的不用担心。

Yeah.

是的。

Nope. You don't have a. This isn't anything. Yeah, don't.

You're good. Everything's fine.

不。你没有。这没什么。是的，不要。你很好。一切都很好。

Yeah.

是的。

I appreciate the concern though, thank you for asking.

不过，我很感激您的关心，感谢您的提问。

No, we're only using the higher level indexes. So these indicators that you've already put into the Excel sheets, those are good. Those are the ones that we want to use because they're the most consistent across the time points.

否，我们只使用更高级别的索引。所以你已经放入 Excel 表格中的这些指标，这些都是好的。这些是我们想要使用的，因为它们在各个时间点上是最一致的。

Yeah.

是的。

Nope. All is well. All right, good.

不。一切都很好。好吧，很好。

OK. Then I guess I'll see you in a couple of weeks. And if there's anything that you see in the data that needs to be

corrected, just send me an e-mail and we'll work from there.

还行。那么我想我会在几周后见到你。如果您在数据中看到任何需要更正的内容，请给我发送电子邮件，我们将从那里开始工作。

All right. Thank you, Shreya.

好吧。谢谢你，Shreya。

All right, have a good week.

好了，祝你一周愉快。

Bye.

再见。
